

You have just entered room "chat1898066680324315366."

photobypip has entered the room.

photobypip: ok

jonnyoosting has entered the room.

pagreen@mac.com has entered the room.

pagreen@mac.com: Okay.

jeff318: sorry, phil didnt get the first invit

jonnyoosting: new chat

pagreen@mac.com: Hey Philip.

jeff318: *invite

photobypip: hi everybody sorry im late

photobypip: i had to shoot this thing with hilary and it went late

jeff318: it's alright... we're frustrated that ryan and marjorie arent here.

jonnyoosting: HILARY hilary?

pagreen@mac.com: Commiserate with us.

jeff318: clinton?

photobypip: ya she sis this marine march thing

jeff318: oh, she was just here in rochester

pagreen@mac.com: It's thundering; I may have to leave soon. Are we going to accomplish anything?

jeff318: we have the email with your top picks

jonnyoosting: I guess. Philip did you think up any genius ideas before we vote on the others?

pagreen@mac.com: Okay, good.

photobypip: nothing genius but i would push for the google maps thing

pagreen@mac.com: With flagging stories for an area?

jonnyoosting: all right, let's all share our top three ideas. remember, the 23 we have are posted on the blog.

photobypip: ya that seems to be a really clear way to organize stories online, in addition to adding context and proximity

jeff318: oh, and did y'all sign up for the google group?

jonnyoosting: yeah

pagreen@mac.com: There's a google group?

photobypip: not yet but im on it

jeff318: yep, the link is on the blog.

jeff318: and phil, did you sign up for the blog?

pagreen@mac.com: Okay. I'll check that tomorrow.

photobypip: i think i did but ill check tonight

jonnyoosting: the people here are obviously not the majority of the problem, but we

jonnyoosting: we've all got to be checking the blog, email, and googlegroup everyday

jonnyoosting: we spend a lot of time in these chats discussing things already mentioned in other locations

jeff318: agreed

photobypip: yup

pagreen@mac.com: Yes.

jonnyoosting: all right, I like four of the ideas - sorry I cheated:

pagreen@mac.com: Stone him. 😊

jeff318: haha

jonnyoosting: I like my cellphone/online app for citizen journalism, the newsquiz in virtual worlds, the geoalerts story thing, and my node context thing - with new and improved growing nodes for important stories!

pagreen@mac.com: Two of those were in my top three.

jonnyoosting: good, some concensus

pagreen@mac.com: I don't know if two people is consensus.

jeff318: i like the node context, geoalerts

jonnyoosting: SOME concensus

jeff318: trying to figure out my #3

jonnyoosting: 😊

pagreen@mac.com: So that's three votes for geoalerts.

pagreen@mac.com: Didn't you say you liked them, Phil?

jeff318: and geo-commenting (which i think we could integrate into the geoalerts app)

photobypip: i think the geo thing is the most relavent

pagreen@mac.com: So that's a majority.

photobypip: but can someone clarify the alert aspect

jonnyoosting: yeah...

jeff318: it's like google alerts... email or sms when relevant stories come up

jeff318: <http://www.google.com/alerts>

photobypip: ok gotcha

photobypip: im in

jonnyoosting: very cool

pagreen@mac.com: Okay, so we have 1 of 5.

jeff318: so that's idea #1

jonnyoosting: philip - you've got at least two more votes

jeff318: make #2 the node context?

pagreen@mac.com: Was nodes the one with "instant context"?

jonnyoosting: yeah

pagreen@mac.com: I thought that was cool, too. Top five material.

photobypip: ya lets go for it

jonnyoosting: okay. #2 is nodes!

pagreen@mac.com: Rock on.

jonnyoosting: virtual news quiz #3?

pagreen@mac.com: Yeah, that was one of my three.

jeff318: sounds good to me

photobypip: sure

jeff318: we can determine the best way to pull off the quiz

jeff318: whether it is in a virtual world or just the web

photobypip: maybe on one of those annoying ad banners

pagreen@mac.com: Yeah, we'll refine details later.

jonnyoosting: lol philip

jeff318: (jon, i visualize something similar to <http://labs.digg.com/swarm/> for your 'storynodes' concept... is that accurate?)

jeff318: #4 is... journalist-in-a-box?

pagreen@mac.com: Which one was that?

jonnyoosting: hmm. I hadn't seen that until I just followed your link. but it looks interesting...

jonnyoosting: it has nodes!

jonnyoosting: I really like the cit journ app. I'd like it to stay, so we can keep refining the idea

photobypip: i agree it seems progressive

jeff318: jon's cell app

photobypip: it could legitimize the whole thing

pagreen@mac.com: Not my favorite, but it has merits. If people will post anyway, they might as well know what they're doing.

jonnyoosting: all right, it's on! #4. next?

pagreen@mac.com: I really like the newscast competition (though I'm biased).

jonnyoosting: megan - can you expand the idea a bit more? would they newscast everyday - with a winner everyday? or what?

photobypip: can we generalize this by just saying news on social sites

jeff318: i don't see how that's a concept that could be picked up by more than one news company

pagreen@mac.com: It would be more of an ongoing thing, Idol-style.

jeff318: sure, it would be original if CNN did it... but two companies doing it would suck.

pagreen@mac.com: You have a point, I suppose.

pagreen@mac.com: I was thinking of it as less linked to companies.

jeff318: and would it last long-term?

jonnyoosting: Yeah, it could work once. but if we are supposed to create something to be tested by news sites...

pagreen@mac.com: The idea would be a yearly contest on Facebook. Schools competing and such.

photobypip: I think just having actual news on the news feed would be a step in the right direction

jeff318: agreed

photobypip: if the news was only once a year it wouldnt have day to day relavence
pagreen@mac.com: So go with news on social sites, and refine the idea from there?

photobypip: ya

jeff318: sounds good to me

pagreen@mac.com: Do we have five, then?

jeff318: sounds it to me...

jeff318: can we do a quick rehash?

jonnyoosting: i think #5 needs more refining now. I'm not comfortable sharing that idea with other groups because I would have nothing to say

jeff318: (1) geoalerts

jeff318: (2) storynodes

jeff318: (3) virtual news quiz

jeff318: (4) journalist-in-a-box

jeff318: (5) news on social sites

jonnyoosting: 5 scares me. facebook apps are almost old news already. and myspace news seems to have failed terribly.

jonnyoosting: how would ours be different?

pagreen@mac.com: How did they do MySpace news?

jeff318: digg clone

pagreen@mac.com: Make it visual, instead of just text.

jeff318: how so?

jonnyoosting: anything we could do with flickr?

jeff318: cant think offhand

photobypip: Im not sure about flickr but I think visuals are essential

pagreen@mac.com: Lightning. Have to go.

photobypip: i am a photographer tho

jonnyoosting: i guess we could just leave 5 as is, and leave it as a possible opening for a Ryan idea, if he's got any.

jeff318: sounds good for now

pagreen@mac.com: has left the room.

photobypip: sounds good to me

jonnyoosting: hey all - can we each post to the blog explaining any of our ideas that made it in a little more detail?

jeff318: so i have 1 and 3

jonnyoosting: that way we know what we're saying when we share with the mixed group later this week.

jeff318: jon, you have 2 and 4

photobypip: sounds good that will put us all on the same page

jeff318: i'll write about some of our ideas for 5

jeff318: phil, did you get the email to sign up for the blog account?

jonnyoosting: yeah, who does 5?

photobypip: I think so, if i didnt ill let you know

photobypip: can we discuss 5 in a responce colmn on the blog

jonnyoosting: let's just leave 5 unexpanded for now, but anyone whose got expansion ideas can post on the blog.

jeff318: okay... otherwise just sign up for an account at www.wordpress.com and let me know when you are done

jeff318: i have to add you as a contributor to the blog

photobypip: i think i did that already

photobypip: my username would be wkuphilip

jeff318: so meeting again on thurs at 9pm?

jonnyoosting: let's call this then

photobypip: sounds good

jonnyoosting: wait - jeff

jonnyoosting: we're meeting with mixed groups for our second meeting. i don't think we need to get together with the regular group again this week

jeff318: yes, blog it as needed. sunday then?

photobypip: what time sunday

jeff318: 9 or 10?

jonnyoosting: philip - you'll have to join the google group and join a mixed group. just pick one that no one else from our group is in yet.

photobypip: ok sounds good

jeff318: phil, it says you don't have an account on the blog yet

jonnyoosting: sunday? I thought we were switching to Tuesdays and Thursdays>

jonnyoosting: ?

photobypip: ok ill get on it and email you when i do

jeff318: okay, but i wasnt too sure about waiting a whole week for our next chat

jonnyoosting: all right, let's do a quick Sunday chat. 9 p.m.

jonnyoosting: ?

photobypip: sounds good

jeff318: works for me

jeff318: so its just a quick catchup chat... only a half hour or so, i would say

jonnyoosting: all right. I'll email the whole group with the update!

jonnyoosting: peace!

jonnyoosting has left the room.

photobypip: lata

jeff318: see ya!

photobypip has left the room.
